DRIVABLE SCAVENGER HUNT: INFORMATION

Fun Facts

☐ London Clay Art Centre (LCAC)

To celebrate Canada's 150th year in 2017 the LCAC made a 34½' x 26' _____ with thousands of tiles. It took 650 volunteers to complete!

☐ Museum London

Many locals know the iconic _____ in front of Museum London. Can you guess what kind of material was used to build it? Aluminum!

☐ Wortley Village

Built in 1898-99 & known for its architectural styles (Classical, Gothic & Romanesque Revival), the _____ has long been a centre for education.

☐ Museum of Ontario Archaeology

500 years ago, _____ were homes that held 38-40 people. This replica was built on the exact original site, where archaeologists found circles in the ground from posts. What kind of materials were used to build _____? Sheets of bark such as elm & birch.

☐ Tourism London

The _____ is the City of London logo. How many leaves does it have? If you counted 27, you're correct! When charged, the panel can power up to 7 homes.

☐ Elsie Perrin Williams Estate

The gate house was designed in 1895 by _____ when she was only 15! The Estate is one of a few surviving built by wealthy Londoners in the 19th & 20th centuries. If you're in the area, check out Medway Valley Heritage Forest.

☐ Woseley Barracks

Did you know that the _____ is one of Canada's oldest museums? Listen to their monthly podcast featuring talks on anniversaries & milestones in Canadian military engagements.

☐ UWO- Hume Cronyn Memorial Observatory

How many _____ do you think UWO has? There are currently three! These were made by Perkin-Elmer Corporation, who also manufactured parts for the Hubble Space Telescope & developed astronaut Neil Armstrong's space helmet visor.
